## Rural Electrification

Year	Country	Title	Beneficiary / Financing
2000	Senegal	Study and implementation of the pilot-project for the electrification of 150 households by photovoltaic system in Mbar Lodge, Mbar Soulou and Mbar Fafako.	JICA / JICA
1999	Senegal	Maps of the rural electrification using a geographical information system	DE - MEMI / FN
1998	Burkina-Faso	Privatizing the management of 3 "communication and activity centers" (CCA) powered by photovoltaic systems	ADEME - EDF / ADEME-EDF
1998	Senegal	Implementation of a solar electrification project covering 100 households and 39 community facilities in the department of Bakel (AISB -Project)	AISB - PMR / E.U
1997	Burkina-Faso	Technical assistance to the NGO in charge of the post-installation maintenance in 3 "communication and activity centers"	ADEME - EDF / ADEME-EDF
1997	Burkina-Faso	Studies on photovoltaic systems' contribution to the improvement of electricity services and on a pilot-project in the region of Bobo Dioulasso	SONABEL - ME / ADEME-EDF
1996	Regional	Case study on electricity supply in developing countries: experiences from the distribution of prepaid electricity meters in Gabon and Burkina Faso	EDF / AFD
1996	Senegal	Feasibility study and design of a decentralized rural electrification program in the department of Bakel	AISB - PMR / E.U
1996	Senegal	Terms of reference for the elaboration of a guiding scheme for solar electrification	PSNES / JICA
1996	Senegal	Feasibility study on a program for intensive distribution of photovoltaic equipment in the region of Kolda	ARPB / The Dutch Embassy
1996	Tchad	Identification work on the project "Local Service Centers" (CCA)	ADEME - EDF / ADEME-EDF
1995	Gambia	Study on the implementation of 50 community photovoltaic systems in the framework of the Regional Solar Program	DWR / E.U
1995	Regional	Study on lifting the barriers to the spread of photovoltaic technology (Joule program – Power to the world's villages)	CE-DGXVII / E.U
1990	Mali	Coordination of the regional seminar in Bamako on the issue "development of African energy resources: solar energy"	AFME / AFME
1990	Senegal	Study on the possibilities to develop solar energy in the department of Matam	AFME / AFME
1989	Senegal	Coordination and monitoring of the diffusion of domestic photovoltaic systems, for the Senegalo-German project on solar energy	PSAES / GTZ
1988	Senegal	Identification study and launch of the project "Diffusion of domestic photovoltaic systems" for the Senegalo-German solar energy project	PSAES / GTZ

## Rural Electrification

Year	Country	Title	Beneficiary / Financing
1987	Morocco	Contribution to the identification study on a project of pre-electrification of 200 villages	AFME / AFME
